

■ Caution

Risk of Fire and Burns. Do Not Open, Crush, Heat Above 60°C or Incinerate. Follow Manufacturer's Instructions.

■ Important Safety Instructions

1. Please fully charge the power bank in first use.
2. Please make sure original or certified cable is used.
3. Please confirm the voltage of the electric device is 5V before charging
4. Do not drop, knock, disassemble or attempt to repair the power bank by yourself
5. Do not immerse or put the power bank in water or damp environment
6. Do not expose or put the power bank close to heat sources or flammable place
7. Do not leave it in the car under strong sunshine and high temperature, or it will damage the power bank.
8. Keep the power bank away from children
9. Do not put any item into the power bank USB input and output ports to avoid any shortcut or damage
10. Please make a complete charge every four month to avoid shortening the power bank life span
11. Do not leave the battery unattended.

■ Specification

Battery Type: Li-Polymer Battery
Capacity: 16000mAh/ 20000mAh 3.7V
Input: Type-C 5V 2.1A
Output: USB 5V/3A
Size: 113*66*28mm / 136*63*26mm
Weight: 330±5g / 380±5g
Made in China

RoHS

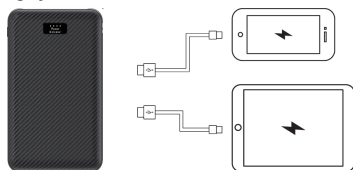

Smart wear dedicated mobile power

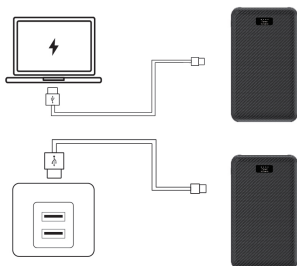

User Manual

Thank you for purchasing our product. For optimum performance and safety, please read these instructions carefully before operating the product. Please keep this manual for future reference

■ Charge your devices

■ Recharge your power bank

To preserve battery lifespan, please use and recharge at least once every 4 months.

■ How to test remaining power

Press the power key to check remain power
Power status:

Light(● ON ○ OFF)	Capacity
○ ○ ○ ○	≤25%
● ○ ○ ○	26% - 50%
● ● ○ ○	51% - 75%
● ● ● ○	76% - 99%
● ● ● ●	100%

"○" indicator flash

"○" indicator close

"●" indicator light

■ Trouble shooting

1. What if the power bank fails to charge

Please check whether the adapter connection is secure or not. If the adapter does not function normally, please use your original data cable.

2. What if the power bank fails to charge other devices?

Please refer to the tips listed under question 1, or check if the power bank voltage is compatible with the electronic device's required charge voltage.

3. My power bank stops working after several times' use, why?

Power bank is equipped with safety protection system. Improper use may trigger the protection system, which leads your power bank to stop working. Please turn off the power bank and give it a full charge, and the problem will be solved.
