

Quick.guide

Installation of The.Pets Pillow

1

Remove the paper and plastic from the foam and let it rest for 24 hours. The cushion regains its original shape.

2

Charge The.Powerbank up to 4 lights.

3

Slide the inner cover around the foam and place the powerbank in the pocket provided. Close the zipper.

4

Take the outer cover and click the ring (in the leather label) around the on/off button of the inner cover.

5

The outer cover can now be placed around the cushion. Close the zip.

Quick.guide

Good to know!

6

The.Pets Pillow needs 10-15 minutes before the heating elements are fully heated.

7

There are 3 settings:

- 35 - 38 °C
- 38 - 40 °C
- 40 - 45 °C

Only the outer blanket can be washed in the washing machine at 30 degrees. Carefully press the on/off button out of the outer blanket. Do not use a dryer!

8

When you switch The.Pets Pillow off and leave The.Powerbank connected, the button flashes from time to time (standby-mode).

9

We recommend removing The.Powerbank from the cushion when supervision is not possible.
